SUBJECT INDEX TO VOLUME 67

(ab) = abstract (E) = editorial

Abdomen, acute conditions of, of infancy and childhood (ab), 157
evaluation of aortography in diagnosis of (ab), 163
Abnormality, intracranial, cranial clues to, 535
Abscesses, psoas, effect of, upon kidneys and urinary passages, 788
Acetabulum, protrusion of (ab), 317
Achlorhydria, possibly a precancerous condition (ab), 154
Achylia gastrica, possibly a precancerous condition (ab), 154
Aclasis, diaphyseal (ab), 174
Acromegaly and heart (ab), 862
Acropachy, thyroid (ab), 141
ACTH in Crohn's disease (ab), 340
treatment of multiple myeloma with (ab), 1033
Actinomycosis, advanced, of spine treated with penicillin and streptomycin (ab), 885
of bone with special reference to infection of vertebral column (ab), 884
Adamantinomas, pituitary, roentgen therapy of (ab), 182
Adenitis, tuberculous, clinical considerations and roentgen therapy in (ab), 329
Adeno-acanthoma of stomach (ab), 150
Adenoid tissue, residual, treatment of, by radium (ab), 330
Adenoma, bronchial (ab), 516
bronchial, clinical picture of (ab), 859
bronchial, nomenclature and present methods of treatment (ab), 516
of Brunner's glands, 777
Adenomas of thyroid, malignancy in (ab), 179
Adenopathy, pulmonary hilar, possible significance of, in erythema nodosum (ab), 514
Adhesions, perigastric, and bands involving pyloric antrum, 210
Age, advanced, retrocardiac space and contrast study of esophagus in (ab), 149
Alabama Radiological Society, 121
Alpha particles, and high energy deuterons, radiological use of, 1
Aluminum lung following exposure to aluminum dust (ab), 515
American Board of Radiology, announcement to diplomates of, 310
American College of Radiology, 1010
notice of 1952 meeting, 121
American Journal of Roentgenology and Radium Therapy, addition to title of (E), 114
American Radium Society (E), 820
preliminary program of 1952 meeting, 827
American Roentgen Ray Society, announcement of 1952 meeting, 828
A-methopterin, acute leukemia treated with (ab), 706
Aminopterin therapy, blood cell changes in leukemia during (ab), 1027
Ampulla of Vater, benign polyp of (ab), 669
Anastomoses, lateral, roentgen appearance of intestinal pouches following, 227
Anatomy of bronchopulmonary segments (ab), 143
Anemia, achrestic, accompanying Crohn's disease (ab), 152
Cooley's, in Sinhalese children (ab), 1027
Cooley's, traumatic fractures in (ab), 883
pernicious, possibly a precancerous condition (ab), 154
Aneurysm, cardiac (ab), 510
dissecting, of aorta with renal complications (ab), 139
intracranial arterial, deliberate thrombosis of, by partial occlusion of carotid artery (ab), 504
of wall of heart (ab), 862
Aneurysms, arteriosclerotic popliteal, method of dealing with (ab), 320
congenital arteriovenous, melorheostosis associated with (ab), 1025
technique of contrast visualization of (ab), 1025
Angiocardiography (ab), 849
demonstration by, of pulmonary artery obstruction (ab), 849
development of (ab), 685
effect of, on heart as measured by electrocardiographic alterations (ab), 520
in diagnosis of congenital cyanotic heart disease (ab), 860
intracardiac, evaluation of, 596
Angiography (ab), 685
cerebral (ab), 500
cerebral, roentgen technique of (ab), 838
diagnosis of traumatic intracranial hemorrhage by (ab), 843
in pulmonary arterial circulation in segmental disturbances of aeration (ab), 508
percutaneous carotid, diagnostic value of (ab), 176
percutaneous cerebral, improved technique for (ab), 503
pulmonary in bronchiogenic carcinoma, diagnostic value of, 51
serial, in diagnosis of space occupying intracranial lesions, 360
Angiomas, treatment of, 273
Angiomatosis, hemorrhagic familial, radiotherapy in treatment of (ab), 696
Angiopneumography, syndrome due to amputation of pulmonary artery shown by (ab), 847

Ankylosis, infantile, of temporomandibular joint (ab), 679
Anomalies, congenital cardiac, newer methods in diagnosis of (ab), 519
tarsal, and peroneal spastic flatfoot (ab), 888
vascular, compression of trachea or esophagus by (ab), 509
Anomaly, iliac horns, a congenital hereditary (ab), 886
Anus, imperforate, and rectourethral fistula in twenty-seven year old man (ab), 167
lymphoid polyps and malignant lymphoma of (ab), 161
Aorta, descending, anomalous origin of right subclavian artery from (ab), 148
dissecting aneurysm of, with renal complications (ab), 139
position of arch of, and descending aorta, roentgen signs in childhood, 924
stenosis of isthmus of (ab), 148
thrombosis of terminal bifurcation of (ab), 318
thrombotic obliteration of bifurcation of, 891
unusual variant of double arch of, 763
Aortic arch, right-sided (ab), 138
Aortography, abdominal, 894
development of (ab), 685
in abdominal diagnosis, evaluation of (ab), 163
percutaneous arterial catheterization in dogs with special reference to (ab), 889
percutaneous femoral artery catheterization in man, with special reference to (ab), 888
study of thrombosis of terminal aortic bifurcation by (ab), 318
translumbar, evaluation of surgical kidney employing (ab), 529
Appendix, calculi of (ab), 670
localization of numerous foreign bodies in (ab), 868
roentgen features of nonmalignant periappendiceal and ileocecal lesions (ab), 525
Arachnoiditis, lumbar spinal (ab), 878
Arrhenoblastoma, incidence of malignancy and relationship to pregnancy, to sterility and to treatment (ab), 674
Arteries, coronary, roentgen topography of (ab), 511
coronary, visualization of, during life (ab), 149
Arteriography in pregnancy, 192
translumbar, 183
Arteriovenous fistula, pulmonary, roentgen aspects of (E), 478
Artery, aberrant, its division or conservation in hydronephrosis (ab), 530
abnormal pulmonary, intralobar sequestration of lung associated with (ab), 861
left femoral, bullet embolus to, following thoracic gunshot wound (ab), 1026
percutaneous femoral, catheterization in dogs with special reference to aortography (ab), 889
percutaneous femoral, catheterization in man with special reference to aortography (ab), 888
pulmonary, in bronchiectasis (ab), 516
pulmonary, obstruction of (ab), 849
pulmonary, thrombosis of (ab), 516
right subclavian, anomalous origin of from descending aorta (ab), 148
Arthrography of knee using diodrast (ab), 887
Arthrokatadysis (ab), 172
Arthrosis deformans, radiation therapy of (ab), 331
Ascites, pelvic tumors with (ab), 673
Asociación Argentino de Radiología, fourth congress of, 487
Ascophyllum, uptake of radioactive iodine by (ab), 1032
Atelectasis of newborn, roentgen findings in, 905
total left pulmonary, following bronchography (ab), 513
Atherosclerosis, experimental, radioactive hydrogen in (ab), 702
Atlas, demonstration of transverse processes of (ab), 678
Atomic bomb, diagnosis, prognosis and treatment of radiation injuries produced by (ab), 697
bombs, injury from (ab), 696
defense, additional teaching in radiological aspects of (ab), 697
warfare, physician's problem in (ab), 336
Atresia of ascending colon (ab), 872
Au^{198} for treatment of cancer of lungs (ab), 703
Autonephrectomy, two extreme forms of, in renal tuberculosis (ab), 529
Autoradiography See Radioautography
Azygos vein, dilatation of, 569

Back, painful (ab), 171
Bailey, Wilbur, elected president of Los Angeles County Medical Association, 310
Banti's syndrome, portography during operation for (ab), 154
Barium, colloidal, air-contrast colon examination with (ab), 670
Bellevue Hospital Radiation Therapy Alumni Association, 828
Beryllium window tube, low voltage roentgen therapy with (ab), 327; (ab), 328
Beta radiation, calculations for distributed sources of, 981
Betatron, preliminary clinical experience with (ab), 342
Bezoar, large gastric (ab), 866
Bile duct, common, congenital dilatation of (ab), 153
ducts, intrahepatic, benign stricture of (ab), 153
Biliary passages, extrahepatic, pharmacologic action of morphine on (ab), 328
tract, carcinoma, direct irradiation of, by radioactive iodine in tetraiodophenolphthalein, 964
Biliselectan, tagged, investigations with (ab), 333

Biopsy, coning, in detection of early cancer of cervix (ab), 164
sponge, in office practice, new method in diagnosis of cancer (ab), 321
Bladder, carcinoma of (ab), 530
condition of upper urinary tract in rigidity of sphincter of (ab), 677
diverticula, roentgen contrast demonstration and evaluation of (ab), 1019
spontaneous and occupational tumors of, in man, experimental carcinogenesis and its relation to (ab), 344
Blood cell changes in leukemia during aminopterin therapy (ab), 1027
flow, local, radioactive sodium in measurement of (ab), 1033
supply of tumors in man, studies on (ab), 706
vessels, anatomical roentgenographic study of alterations of, in certain forms of renal pathology (ab), 529
vessels, cerebral, demonstration of, with viscous perabrodil M 35 per cent solution (ab), 843
vessels, separation of, from walls of lateral ventricle in rapidly progressing hydrocephalus, 929
volume during pregnancy and puerperium (ab), 164
volume, method of determination of, with radioactive phosphorus (ab), 1032
Body, total, roentgen irradiation, effect of, on long bones of hamsters, 974
whole, cataract formation following irradiation of (E), 998
whole, exposure of, to penetrating ionizing radiation, hemorrhagic phase of acute radiation syndrome due to, 796
Bolen test in diagnosis of neoplasms (ab), 711
Bone, actinomycosis of, with special reference to infection of vertebral column (ab), 884
carpal lunate, early changes of Kienböck's disease of (ab), 1021
changes, unusual, polyarthritis with (ab), 314
dystrophy in association with muscular dystrophy (ab), 1024
fibrous dysplasia of (ab), 683; (ab), 1024
formation, reactive, in Ewing's sarcoma (ab), 1021
grafts, effect on, of radioactive isotopes of phosphorus (ab), 700
growing, injuries of, by contact roentgen irradiation and their prevention (ab), 343
hemangioma of (ab), 175
hydatid cyst of (ab), 173
infected temporal, radiology of (ab), 133
innominate, chondromas and chondrosarcomas of (ab), 879
lesions, irradiation of, in presence of metallic intramedullary fixation (ab), 345
lesions, prenatal and neonatal, 715
lymphogranulomatosis of (ab), 1024
monostotic fibrous dysplasia of (ab), 172
multiple spontaneous "pseudofractures" of (ab), 1021
parietal, development of, 554
parosteal osteoma of (ab), 880
restitutive approach to lesions of (ab), 1020
sclerosis, melorheostosis with (ab), 315
transplants, refrigerated homogenous, in orthopedic operations (ab), 711
variations, coincident, and separate neural arch, incidence of (ab), 171
Bones, long, of hamsters, effect of total body roentgen irradiation on, 974
tarsal, anomalies of, and peroneal spastic flatfoot (ab), 888
tarsal, symphalangism and related fusions of (ab), 888
Book reviews
Roentgen Manifestations of Pancreatic Disease. By Maxwell Herbert Poppel, 124
Bronchography. By Eelco Huizinga and G. J. Smelt, 125
La pratique stomatologique. By P. Bertrand, M. Dechaume and G. Lacronique, 125
Das Adenocarcinom des Collum Uteri—histologische, klinische und therapeutische Ergebnisse. By Hans Limburg and Klaus Thomsen, 125
Selected Papers from the Royal Cancer Hospital and the Chester Beatty Research Institute, 126
Progress in Biophysics and Biophysical Chemistry. By J. A. V. Butler and J. T. Randall, 127
Roentgenologic Diagnosis of Diseases of Bones. By David G. Pugh, 490
Coxitis tuberkulosa. Ein Beitrag zur röntgenologischen Pathologie der Skelettuberkulose. By Herbert Gardemin, 490
Røntgenundersøkelser ved akutte abdominalsykdommer. By J. Frimann-Dahl, 490
Principles and Practice of Surgery. By Jacob K. Berman, 491
Annual Review of Medicine. By Windsor C. Cutting and Henry W. Newman, 492
Nutrition and Chemical Growth in Childhood. By Icie G. Macy, 493
The Preparation of Photographic Prints for Medical Publication. By Stanley J. McComb, 493
Post-Graduate Lectures on Orthopedic Diagnosis and Indications. Volume I. By Arthur Steindler, 659
Post-Graduate Lectures on Orthopedic Diagnosis and Indications. Volume II. By Arthur Steinder, 659
Handbook of Pediatric Medical Emergencies. By Adolph G. DeSanctis and Charles Varga, 660
Confrontations-Radio-Anatomo-Cliniques. By M. Chiray, R. A. Gutmann and J. Sénèque, 660

Chest X-Ray Diagnosis. By Max Ritvo, 660
Oral and Facial Cancer. By Bernard G. Sarnat and Isaac Schour, 661
Malignant Disease of the Female Genital Tract. By Stanley Way, 661
Radiologia Austriaca, 661
A Manual of Artificial Radioisotope Therapy. By Paul F. Hahn, 662
Therapeutic Radiology. By George Winslow Holmes and Milford D. Schulz, 830
Annual Report on the Results of Radiotherapy in Carcinoma of the Uterine Cervix, 830
Nouveau Traité d'Electro-Radiothérapie. By L. Delherm, 831
Clinical Urography. An Atlas and Textbook of Roentgenologic Diagnosis. By William F. Braasch and John L. Emmett, 832
"Your Prostate Gland." by Reed M. Nesbit, 833
A Study in Slipped Upper Femoral Epiphysis. By Torsten Jerre, 833
Bovines, study of "cancer eye" in, 122
Brain, early damage of, and dysplasia of base of skull (ab), 842
metastatic hypernephroma of (ab), 501
tumors, fluorescein in localization of (ab), 500
tumors, scintillation counter for detection and localization of, 351
tumors, use of positron-emitting radioisotopes for localization of (ab), 703
Breast, cancer, hormonal therapy in (ab), 707
cancer, in mother and daughter, hereditary aspect of (ab), 852
cancer, roentgen therapy alone in treatment of (ab), 1028
cancer, surgical treatment and irradiation of (ab), 332
female, castration and androgen hormone therapy in cancer of (ab), 340
male, bilateral carcinoma of, after estrogen therapy (ab), 709
male, effect of hormonal imbalance on advanced carcinoma of (ab), 180
primary operable carcinoma of, hormone-treated (ab), 707
sex hormones and castration in advanced cancer of (ab), 708
tracer studies of radioactive sodium estrone sulfate in advanced cancer of (ab), 703
Bronchi, adenoma of, (ab), 516
adenoma of nomenclature and present methods of treatment (ab), 516
clinical picture of adenoma of (ab), 859
role of, in pulmonary tuberculosis (ab), 514
Bronchial tree, roentgen studies of branches of (ab), 137
Bronchiectasis, congenital factor in (ab), 856
pulmonary artery in (ab), 516
Bronchiogenic carcinoma, diagnostic value of pulmonary angiography in, 51
Bronchogenic carcinoma and diabetes insipidus, association of (ab), 148
carcinoma as differential diagnostic problem in pulmonary disease (ab), 147; (ab), 148
Bronchography, clinical and experimental studies in use of water-soluble agent for (ab), 856
delayed pulmonary complications of (ab), 137
experiences with, using water-soluble contrast media (ab), 512
in diagnosis and localization of intrapulmonary foreign bodies (ab), 847
in tuberculosis (ab), 857
ioduron, harmful to lung parenchyma? (ab), 145
total left pulmonary atelectasis following (ab), 513
with Métras' catheters (ab), 508
Broncholithiasis and broncho-esophageal fistula (ab), 143
Bronchopulmonary segments, anatomy of (ab), 143
Bronchus, carcinoma of (ab), 518
right lower, carcinoma in situ of (ab), 518
Brunner's glands, adenoma of, 777
Bullet embolus to left femoral artery following thoracic gunshot wound (ab), 1026

Calcaneus, fractures of anterior process of (ab), 684
Calcification, diffuse, of pancreas (ab), 160
disseminated, of pancreas (ab), 160
extensive, of myocardium (ab), 520
focal myocardial, 602
in patent ductus arteriosus (ab), 138
pericardial, roentgen appearance of (ab), 521
placental, in roentgen pregnancy study, 267
pleural, resulting from exposure to certain dusts, 375
symmetrical, in cerebellum, 562
Calcifications in track of needle following ventricular puncture (ab), 499
of placenta (ab), 675
Calcinosis, extensive, with metastasizing carcinoma of parathyroid gland (ab), 683
of kidneys associated with parathyroid tumor (ab), 677
Calculi, appendiceal (ab), 670
renal, layering phenomenon of, 410
Caldwell Lecture, 1951, 535
Calyces, extrarenal (ab), 677
Cancer, achlorhydria, achylia gastrica and pernicious anemia, possibly early manifestations of (ab), 154
advanced breast, sex hormones and castration in (ab), 708
advanced, of breast, tracer studies of radioactive sodium estrone sulfate in (ab), 703
as sequel to war wounds (ab), 689
breast, in mother and daughter, hereditary aspect of (ab), 852
diagnosis, prostatic smear in (ab), 167
effects of roentgen rays on (ab), 349
enzymatic evaluation of therapeutic agents in (ab), 710
eye in bovines, study of, 122

gastric, mucolytic action of papain for cell concentration in diagnosis of (ab), 710
genital, in female, value of male hormone in treatment of (ab), 339
ileocecal invagination due to (ab), 526
metastases simulating mammary, in prostatic carcinoma under estrogenic therapy (ab), 707
most detectable internal (ab), 858
of breast, hormonal therapy in (ab), 707
of breast, roentgen therapy alone in treatment of (ab), 1028
of breast, surgical treatment and irradiation of (ab), 332
of cervix, coning biopsy in detection of early (ab), 164
of cervix, uptake of labelled phosphorus by (ab), 335
of cervix uteri, endocrine factors in (ab), 1016
of cervix uteri, radium therapy for, with new type of colpostat, 294
of esophagus, roentgen treatment of (ab), 179
of esophagus, rotation therapy of (ab), 693
of gums, 420
of large bowel and rectum, early, diagnosis of (ab), 670
of larynx and hypopharynx, roentgen therapy in, 443
of lung, follow-up study of suspects in mass chest roentgen survey (ab), 506
of lungs, new method for treatment of, by artificial radioactivity (Zn^{63} and Au^{198}) (ab), 703
of ovary (ab), 876
of prostate gland (ab), 678
of rectum, new technique for treatment of, with radium and roentgen rays (ab), 326
primary, of female breast, and its metastases, castration and androgen hormone therapy in (ab), 340
primary, of lung (ab), 517
prostatic, serum phosphatase determinations in diagnosis of (ab), 530
radiocurability of, 428
role of vertebral venous system in metastasis of, to spinal column (ab), 713
sponge biopsy, a new method in diagnosis of (ab), 321
surgery, radioactive cobalt as adjunct to (ab), 1031
untreated, duration of life in (ab), 688
Carbon, radioactive, distribution and dosage of, in tissues, 989
Carcinogenesis, experimental, its relation to spontaneous and occupational tumors of bladder in man (ab), 344
Carcinoid of rectum (ab), 670
Carcinoma, advanced, of male breast, effect of hormonal imbalance on (ab), 180
alveolar cell, bronchiogenic neoplasm masquerading as (ab), 517
alveolar cell, of lung (ab), 517
bilateral, of male breast after estrogen therapy (ab), 709
bronchiogenic, diagnostic value of pulmonary angiography in, 51
bronchiogenic, early detection of (ab), 848
bronchogenic (ab), 518
bronchogenic, as differential diagnostic problem in pulmonary disease (ab), 147; (ab), 148
bronchogenic, association of, and diabetes insipidus (ab), 148
endometrial, associated with feminizing ovarian tumors (ab), 673
endometrial, myometrium and leiomyomas in (ab), 165
frog, direct microscopic observations on living intraocular transplants of (ab), 349
gastric, detection of, by photographic methods, 68
in region of papilla of Vater (ab), 160
in situ of cervix, vaginal smear diagnosis in (ab), 166
in situ of right lower bronchus (ab), 518
metastasizing, of parathyroid gland with osteitis fibrosa cystica and extensive calcinosis (ab), 683
nasopharyngeal, nitrogen mustard and urethane in treatment of (ab), 339
occurring in sinuses of chronic osteomyelitis (ab), 133
of bladder (ab), 530
of cardia of stomach as detected by laminagraphy, 932
of cervix and supracervical hysterectomy (ab), 877
of cervix, new colpostat for radium treatment of (ab), 325
of cervix, operative treatment of (ab), 877
of cervix uteri during pregnancy (ab), 675
of cervix uteri, factors influencing prognosis in treatment of (ab), 332
of corpus uteri in young women (ab), 675
of esophagus and gastric cardia (ab), 509
of gum (ab), 178
of liver and biliary tract, direct irradiation of, by radioactive iodine in tetraiodophenolphthalein, 964
of lung, hypertrophic osteoarthropathy in (ab), 858
of lung, lipoid pneumonia in, treated by radiotherapy (ab), 1030
of pancreas, diagnostic and operative criteria (ab), 671
of pancreas, roentgen findings in, 576
of skin, treatment of, 606
of uterine cervix, correlation of histologic grade, clinical stage and radiation response in (ab), 696
of uterine corpus, intrauterine radium therapy of (ab), 333
of vagina, radiation therapy of (ab), 325

parathyroid (ab), 851
primary bronchogenic, of lung in children (ab), 848
primary, of liver in hemochromatosis (ab), 874
primary, of lung (ab), 857
primary operable breast, hormone-treated (ab), 707
prostatic, metastases simulating mammary cancer in, under estrogenic therapy (ab), 707
prostatic, pituitary irradiation in (ab), 182
squamous cell, of cervix, results of treatment of (ab), 693
Carcinomas, metachronous, of colon (ab), 873
of oral cavity, pharynx and larynx, osseous metastases in (ab), 137
Carcinomatosis, lymphangitic, of lungs (ab), 518
Cardia, gastric, shadow, simulating left suprarenal tumor (ab), 166
of stomach, carcinoma of, as detected by laminagraphy, 932
Cardioangiography, clinical and electrocardiographic results (ab), 849
Cardiospasm simulating mediastinal tumors (ab), 850
Carman Lecture (ab), 685
Cassette marker, permanent, identification of right and left sides in roentgenograms by (ab), 342
Castration and sex hormones in advanced breast cancer (ab), 708
in primary cancer of female breast and its metastases (ab), 340
Cataract formation following whole body irradiation (E), 998
Catheterization, percutaneous arterial, in dogs with special reference to aortography (ab), 889
percutaneous femoral artery, in man with special reference to aortography (ab), 888
Cathode-ray irradiation, high voltage, sterilization of frozen arterial grafts by (ab), 1034
Cavities, inspissated tuberculous, 57
Cell volumes, effect of roentgen irradiation on (ab), 344
Cephalometry, fetal, evaluation of Cave's roentgenographic method of (ab), 528
Cephalopelvimetry, roentgenographic, 449
Cerebellum, cystic glioastrocytomas of, in child (ab), 503
symmetrical calcification in, 562
Cerebral angiography (ab), 500
ventricular system, translucent model of (ab), 840
Cerebrospinal fluid circulation in tuberculous meningitis in children, studies of (ab), 135
fluid, tracer studies with radioactive phosphorus on absorption of (ab), 700
Cerebrovascular accident, surgical management (ab), 504
Cervical sinus, lateral, 757
Cervix uteri, cancer, endocrine factors in (ab), 1016
cancer, radium therapy for, with new type of colpostat, 294
cancer, uptake of labelled phosphorus by (ab), 335
carcinoma, and supracervical hysterectomy (ab), 877
carcinoma, correlation of histologic grade, clinical stage and radiation response in (ab), 696
carcinoma, during pregnancy (ab), 675
carcinoma, factors influencing prognosis in treatment of (ab), 332
carcinoma in situ of, vaginal smear diagnosis in (ab), 166
carcinoma, new colpostat for radium treatment of (ab), 325
carcinoma, operative treatment of (ab), 877
coning biopsy in detection of early cancer of (ab), 164
squamous-cell carcinoma, results of treatment of (ab), 693
Chemical means, alteration of mortality of roentgen irradiated mice by, 810
Chest, plea for routine postmortem teleroentgenograms of, 263
survey, total population roentgen, value of, in campaign against tuberculosis (ab), 136
roentgen survey, mass follow-up study of lung-cancer suspects in (ab), 506
use of tantalum gauze in closure of defect in wall of (ab), 149
Child, African, congenital toxoplasmosis in (ab), 840
Childhood, acute abdominal conditions of (ab), 157
importance of bronchial involvement in primary tuberculosis of (ab), 857
pseudarthrosis of tibia in (ab), 175
roentgen signs of position of aortic arch and descending aorta in, 924
Children, congenital pulmonary stenosis of (ab), 513
conservative treatment of fractures in (ab), 533
cystic glioastrocytomas of cerebellum in (ab), 503
duodenal ulcer in (ab), 864
early roentgen diagnosis of hip joint disease in (ab), 886
ectopic ureter in (ab), 677
fractures of elbow in (ab), 1022
fractures of neck of femur in (ab), 681
lead poisoning in (ab), 176
primary bronchogenic carcinoma of lung in (ab), 848
retroperitoneal tumors in (ab), 868
Sinhalese, Cooley's anemia in (ab), 1027
sinobronchitis in, 240
studies of cerebrospinal fluid circulation in tuberculous meningitis in (ab), 135
technique of pneumoencephalography in (ab), 504
trichobezoar in (ab), 1014
under two years of age, intussusception in (ab), 158
young, factors influencing mediastinal shadow in (ab), 139
Cholangiography, peritoneoscopic (ab), 1016

Cholecystectomy, pulmonary changes following (ab), 847
Cholecystitis, acute (ab), 864
and cholelithiasis in young women following pregnancy (ab), 526
Cholecystography, investigations by, on action of short waves on function of gallbladder (ab), 347
investigations by, on pharmacologic action of morphine on extrahepatic biliary passages of man (ab), 348
new medium for (ab), 672
Cholelithiasis and cholecystitis in young women following pregnancy (ab), 526
Chondromas of scapula and innominate bone (ab), 879
Chondrosarcoma of ilium complicating hereditary multiple exostoses (ab), 887
Chondrosarcomas of scapula and innominate bone (ab), 879
Chorionepithelioma occurring during pregnancy (ab), 1017
spontaneous and complete regression of extensive pulmonary metastases in case of (ab), 146
Chyle, intestinal, reflux of, in lymphatics of leg (ab), 176
Circulation of roentgen irradiated animals, disappearance rate of tagged substances from, 628
portal, in experimental hemorrhagic shock (ab), 713
Circulatory volume, determination of, with radioactive substances (ab), 333
Clinoid, anterior, unilateral changes in, due to neoplasms in spheno-orbital space (ab), 135
Cobalt, radioactive, as adjunct to cancer surgery (ab), 1031
Cobalt 60, radioactive, in plastic tubing for interstitial radiation therapy (ab), 701
teletherapy unit, preliminary depth dose and isodose measurements for (ab), 337
Coccidioidomycosis (ab), 515
Collapse, lobar, patterns of, as observed roentgenographically (ab), 144
Colon, air-contrast examination of, with colloidal barium (ab), 670
ascending, atresia of (ab), 872
descending, submucous lipoma of (ab), 153
diffuse familial polyposis of (ab), 872
familial polyposis of (ab), 1015
metachronous carcinomas of (ab), 873
sigmoid, volvulus of (ab), 670
simple one-stage method of double contrast study of (ab), 160
Colpostat, new, for radium treatment of carcinoma of cervix (ab), 325
radium therapy for cancer of cervix uteri with new type of, 294
Common duct, nonoperative treatment of retained postoperative stones of (ab), 162
Conjugate, diagonal (ab), 875
Contrast, double, inflation of stomach with (ab), 155
double, of stomach (ab), 1014
double, study of colon, simple one-stage method of (ab), 160
media for roentgen examination of gastrointestinal tract (ab), 869
media, water-soluble, experiences with bronchography using (ab), 512
medium, new water-soluble, for hysterosalpingography (ab), 1017
medium, water-soluble, for bronchography, clinical and experimental studies in use of (ab), 856
medium, water-soluble, hysterosalpingography with, in investigation of infertility (ab), 528
method, simple roentgen, liver and spleen visualization by (ab), 162
Cor pulmonale, chronic, premonitory syndrome of (ab), 137
Cortisone, effect of, on growth of transplanted ependymomas in mice (ab), 344
in Crohn's disease (ab), 340
Cousins, four first, pyloric stenosis in (ab), 156
Cranial clues to intracranial abnormality, 535
Craniopharyngiomas, roentgen therapy of (ab), 182
Crohn's disease, ACTH, cortisone or sodium salicylate in (ab), 340
and intestinal tuberculosis (ab), 151
involving jejunum II (ab), 152
localized in jejunum (ab), 152
recurrence of (ab), 151
survey of literature and report on 34 cases (ab), 152
Cyclotron, 184 inch, current work with beam of, 23
workers, changes in total circulating eosinophil count in (ab), 1026
Cylindroma, massive, of scalp and face, surgical management of (ab), 505
Cyst, colloid, of third ventricle (ab), 838
secretion-filled echinococcus, situated near heart, kymographic demonstration of (ab), 149
Cystadenoma lymphomatosum, papillary, of parotid gland (ab), 136
Cystectomy, total, evaluation of in carcinoma of bladder (ab), 530
Cystography, needle puncture of cysts of ovary of and (ab), 164
Cysts, mediastinal, of embryologic origin (ab), 855
multilocular, of kidney (ab), 1018
of ovary, needle puncture of, and cystography (ab), 164
of pericardium (ab), 138

Decontamination, radioactive (ab), 698
Defense, mobilization of health resources for (ab), 696
Dermatofibrosarcoma protuberans (ab), 177
Desoxyribose nucleic acid, growth of human leukemic leukocytes in vitro and in vivo as measured by uptake of P^{32} in (ab), 705

Deuterons, high energy, and alpha particles, radiological use of, 1
radiation effects of, on mouse tumors, 18
Deutsche Röntgen-Gesellschaft, thirty-fourth congress of, 487
Diabetes insipidus, association of bronchogenic carcinoma and (ab), 148
Diabetic neuropathic joints, management of (ab), 1022
Diaphragm, configuration of stomach in relaxation of (ab), 150
eventration of, repaired with tantalum mesh (ab), 149
eventration of, with inversion of stomach, 63
ruptured, complicating pneumoperitoneum, spontaneous pneumothorax resulting from (ab), 850
uncomplicated injuries of (ab), 863
Diastematomyelia with vertebral column defects (ab), 531
Diethylstilbestrol, radioactive, tissue localization and excretion routes of (ab), 701
Diiodofluorescein, radioactive, test for localization of intracranial lesions, evaluation of technique and results of (ab), 699
Dilatation, congenital cystic, of renal collecting tubules (ab), 1018
of azygos vein, 569
Diodone, water-soluble, hysterosalpingography with, in investigation of infertility (ab), 528
Diodrast arthrography of knee (ab), 887
study of vertebral and cranial venous systems by (ab), 843
visualization of ventricular chambers and great arteries, heart puncture in man for (ab), 849
Dislocation, congenital, of hip (ab), 533; (ab), 534
congenital, of hip, vascular epiphyseal changes in (ab), 682
distal radio-ulnar, fractures of radial head with (ab), 883
Diverticula of bladder, roentgen contrast demonstration and evaluation of (ab), 1019
pharyngeal, evolution and treatment of (ab), 140
Dolichosigmoid, morphologic-functional observations in (ab), 871
Dosage, estimation of, for intravenously administered P^{32}, 28
of radiocarbon in tissues, 989
Dosages, beta-ray, above 1 rep/sec., simple laboratory set up for rapid measurement of (ab), 347
Dose, depth, investigation for perforated grid therapy at 200 kilovolts, 458
depth, measurements, grid technique of radiotherapy with, 470
distribution studies in phantoms exposed to supervoltage roentgen radiation, 620
preliminary depth, for cobalt 60 teletherapy unit (ab), 337
Doses, small roentgen, repeated daily for one year, biologic effects of (ab), 343
Dosimeter, colorimetric, for qualitative measurement of penetrating radiations (ab), 709
Dosimetry, use of roentgen films in, 991
Dramamine, treatment of radiation sickness with (ab), 178
Duct of Wirsung, demonstration of, through pancreatico-cutaneous fistula (ab), 867
Ductus arteriosus, patent, calcification in (ab), 138
Duodenum, congenital intrinsic obstruction of, in newborn (ab), 1014
fistula of, modified Miller-Abbott tube in treatment of (ab), 865
malignant tumors of (ab), 157
prolapse of gastric mucosa into (ab), 524
prolapse of gastric mucosa into bulb of (ab), 523
ulcer of, in children (ab), 864
Dupuytren's contracture, treatment of (ab), 330
Dust, aluminum, case of aluminum lung following exposure to (ab), 515
Dusts, pleural calcification resulting from exposure to certain, 375
Dysgerminoma of ovary (ab), 876
Dysmenorrhea, ureteric (ab), 164
Dysostosis, cleidocranial (ab), 322
cleidocranial, syndrome of (ab), 323
metaphysial, renal rickets simulating (ab), 879
multiplex, 715
Dysplasia, fibrous, of bone (ab), 683
fibrous, of bone (ab), 1024
fibrous, of skeleton, roentgen and differential diagnosis of (ab), 315
fibrous, of skull (ab), 842
hereditary ectodermal, of anhidrotic type (ab), 177
monostotic fibrous, of bone (ab), 172
of base of skull, early brain damage and (ab), 842
osteodental (ab), 322
polyostotic fibrous, associated with hyperthyroidism (ab), 315
progressive diaphyseal (ab), 314
punctate epiphyseal (ab), 314
Dystrophia myotonica, heart in (ab), 520
Dystrophy, bone, in association with muscular dystrophy (ab), 1024

Ectopia, partial gastric, hypertrophic pyloric stenosis associated with (ab), 156
Editorials

Cataract Formation Following Whole Body Irradiation, 998
Isaac Gerber, 1885–1952, 1003
Effusion, pericardial, large thymic tumor simulating (ab), 513
Elbow, fractures of, in children (ab), 1022
Electrocardiography, effect of angiocardiography on the heart as measured by (ab), 520
Electrokymogram in Wolff-Parkinson-White syndrome (ab), 510
Electrokymography (ab), 863
Electrons, fast, radiotherapeutic use of (ab), 694
fast, significance of time factor in irradiation of human skin with (ab), 328
Emboli, peripheral arterial bullet (ab), 1026
Embolism, air, during pneumography of urinary tract under spinal anesthesia (ab), 528
Emphysema, interstitial gastric, following gastroscopy (ab), 527
retroperitoneal (ab), 162; (ab), 1017
roentgen diagnosis of (ab), 506
Endocrine affections, roentgen diagnosis of (ab), 531
factors in cancer of cervix uteri (ab), 1016
Endometriosis of rectosigmoid (ab), 526
Endothelioma of pleura (ab), 146
pleural, picture resembling following chronic hemorrhagic pleuritis (ab), 146
Engelmann's disease (ab), 314; (ab), 882
Enzymatic evaluation of therapeutic agents in cancer (ab), 710
Enteritis, chronic nonspecific regional, recurrence of (ab), 151
Eosinophil count, total circulating, changes in, in cyclotron workers (ab), 1026
Ependymomas, transplanted, effect of cortisone on growth of, in mice (ab), 344
Epignathus, survival of host after its excision (ab), 839
Epiphysis, upper femoral, slipping of (ab), 681
Epistropheus, demonstration of (ab), 678
Erythema nodosum, significance of associated pulmonary hilar adenopathy (ab), 514
Erythrogenesis, effect of roentgen irradiation on (ab), 344
Esophagitis, reflux, and anatomy of repair (ab), 527
Esophagus See also Mega-esophagus
anomalous lobe of lung arising from (ab), 143
benign polypoid tumor of (ab), 852
benign tumors of (ab), 508
benign ulcer of (ab), 853
cancer, roentgen treatment of (ab), 179
cancer, rotation therapy of (ab), 693
carcinoma of (ab), 509
chronic peptic ulcer of (ab), 140
complete obstruction of, following serutan ingestion (ab), 844
compression of, by vascular anomalies (ab), 509
congenital short (ab), 521
contrast study of, in advanced age (ab), 149
foreign bodies in (ab), 142
lower, benign obstruction of (ab), 140
lower, oil contrast study of, 942
retrograde extrusion or prolapse of gastric mucosa into (ab), 865
rotation therapy in neoplasms of (ab), 179
scleroderma with involvement of (ab), 845
short (ab), 844
Estrogen therapy, bilateral carcinoma of male breast after (ab), 709
metastases simulating mammary cancer, in prostatic carcinoma under (ab), 707
Eustachian tube, vulnerability of (ab), 505
Euthyroid cardiac patients, incapacitated, treatment of, by producing hypothyroidism with radioactive iodine (ab), 704
Eventration of diaphragm repaired with tantalum mesh (ab), 149
Exophthalmos, edematous, without hyperthyroidism, roentgen therapy of (ab), 691
malignant, irradiation of pituitary in treatment of (ab), 690
thyrotropic, roentgen therapy of (ab), 692
Exostoses, hereditary multiple, chondrosarcoma of ilium complicating (ab), 887
Extremities, technique and value of venography of (ab), 889

Face, method of treatment of staphylococcal infections involving (ab), 324
total excision of scalp and portions of (ab), 505
"Fakirism," mega-esophagus acquired by (ab), 141
Falcotentoriography (ab), 839
Fallopian tubes, false diagnosis of patency of (ab), 164
Femur, fractures of neck of, in children (ab), 681
measurement of neck of, 993
roentgen considerations in fractures of neck of, 732
slipping of upper epiphysis of (ab), 681
subtrochanteric osteotomy for nonunion of neck of (ab), 886
Fetus, roentgen sign of death of, 106
Fibrocystic disease of pancreas (ab), 866
Fibrosis of pancreas, pulmonary changes in (ab), 507
pulmonary, clinically indeterminate (ab), 515
Films, photographic, use of, for monitoring stray roentgen and gamma rays (ab), 340
roentgen, use of, in dosimetry, 991
Filters, use of, to control radiation exposure to patient in diagnostic roentgenology, 946
Fistula, arteriovenous, of lung (ab), 509
broncho-esophageal, and broncholithiasis (ab), 143
congenital recto-urinary (ab), 1019
duodenal, modified Miller-Abbott tube in treatment of (ab), 865
pancreatico-cutaneous, demonstration of duct of Wirsung through (ab), 867
pulmonary arteriovenous, roentgen aspects of (E), 478
rectourethral, and imperforate anus in twenty-seven year old man (ab), 167

Flatfoot, peroneal spastic, tarsal anomalies and (ab), 888
Fluorescein in localization of brain tumors (ab), 500
Fluoroscopes See Roentgenoscopes
Folic acid antagonists, effects of, on neoplastic disease (ab), 708
Foot, melanocarcinoma of plantar surface of (ab), 690
Foramina parietalia permagna, 551
Foreign bodies, esophageal (ab), 142
intrapulmonary, bronchography as means for diagnosis and localization of (ab), 847
numerous, in appendix, localization of (ab), 868
Fracture, Monteggia, with posterior dislocation of radial head (ab), 170
of spinous processes (ab), 172
Fracture-dislocation, atlanto-axial (ab), 169
Fractures, fatigue, of tibia (ab), 684
in children, conservative treatment of (ab), 533
of anterior process of calcaneus (ab), 684
of dorsal and lumbar vertebrae (ab), 883
of elbow in children (ab), 1022
of neck of femur in children (ab), 681
of neck of femur, roentgen considerations, 732
of radial head with distal radio-ulnar dislocation (ab), 883
of upper end of tibia (ab), 887
traumatic, in Cooley's anemia (ab), 883
undisplaced ununited, of tibia, osteoperiosteal ribbon grafts in (ab), 887

Gallbladder, cholecystographic investigations on action of short waves on function of (ab), 347
congenital absence of (ab), 1016
human, emptying of, in serial roentgenograms (ab), 672
localization of, 644
Gamma rays, stray, use of photographic films for monitoring (ab), 340
Gargoylism, 715
Gastritis, phlegmonous, 781
Gastrointestinal tract, contrast media for roentgen examination of (ab), 869
preoperative diagnosis of pancreatitis by roentgenography of (ab), 671
upper, diagnostic accuracy of roentgen examination in diseases of (ab), 155
Gastroscopy, interstitial gastric emphysema following (ab), 527
Genitourinary tract, radiation therapy in diseases of (ab), 695
Gerber, Isaac, 1885–1952, obituary, 1003
portrait, 1003
Glioastrocytomas, cystic, of cerebellum in child (ab), 503
Gliomas, primary extramedullary (ab), 168

Goiter, critical analysis of management of, at University of Nebraska Hospital (ab), 845
metastasizing (ab), 850
posterior mediastinal (ab), 142
Gold, radioactive colloidal metallic, in treatment of acute AK-4 leukemia in mice (ab), 705
Grafts, frozen arterial, sterilization of, by high voltage cathode-ray irradiation (ab), 1034
osteoperiosteal ribbon, in undisplaced ununited fractures of tibia (ab), 887
Granulomas, primary reticulo-endothelial (ab), 1023
Greater Miami Radiological Society, 309
Grid technique of radiotherapy with depth dose measurements, 470
therapy, perforated, at 200 kilovolts, depth dose investigation for, 458
Gums, cancer of, 420
carcinoma of (ab), 178

Hallux rigidus, Keller operation for (ab), 684
valgus, Keller operation for (ab), 684
Hamsters, effect of total body roentgen irradiation on long bones of, 974
Hand, irradiation injuries of (ab), 323
Health resources, mobilization of, for defense (ab), 696
Heart, acromegaly and (ab), 862
aneurysm of (ab), 510
aneurysm of wall of (ab), 862
changes in silhouette of, in atelectasis of newborn, 905
disease, congenital cyanotic, angiocardiography in diagnosis of (ab), 860
disease, metabolism of radioactive iodine in patients with, 42
effect of angiocardiography on, as measured by electrocardiographic alterations (ab), 520
in dystrophia myotonica (ab), 520
kymography of, in horizontal section, two methods of (ab), 712
mensuration of, as applied to survey films (ab), 521
newer methods in diagnosis of congenital anomalies of (ab), 519
puncture (ab), 849
puncture in man for diodrast visualization of ventricular chambers and great arteries (ab), 849
volume during pregnancy and puerperium (ab), 164
Hemangioma of bone (ab), 175
of large intestine (ab), 871
Hematoma of thoracic wall, osteogenic sarcoma arising in (ab), 856
spontaneous circumrenal (ab), 1019
Hemihypertrophy, congenital, with lymphangioma (ab), 322
Hemochromatosis, primary carcinoma of liver in (ab), 874
Hemorrhage, massive intracranial, surgical management (ab), 504
spontaneous subarachnoid, treatment of (ab), 842
traumatic intracranial, diagnosis of, by angiography (ab), 843

Hemorrhagic shock, experimental, portal circulation in (ab), 713
Hemothorax, traumatic, osteogenic sarcoma arising in (ab), 856
Hereditary aspect of breast cancer in mother and daughter (ab), 852
Hernia, cervical, of lung (ab), 513
sliding hiatal, and anatomy of repair (ab), 527
Hip, congenital dislocation of (ab), 533; (ab), 534
joint, degenerative osteoarthritis of, 95
joint disease in children, early roentgen diagnosis of (ab), 886
joint, osteochondromatosis of (ab), 175
normal anatomy and physiology of, 733
prognosis in tuberculosis of (ab), 885
vascular epiphyseal changes in congenital dislocation of (ab), 682
Hirschsprung's disease (ab), 153
Histoplasmosis, pulmonary (ab), 144
Hodgkin's disease, partition of radiophosphorus in blood, urine and tumor tissue in patients with, before and after treatment with nitrogen mustard (ab), 334
primary, of stomach, 592
problem of pregnancy in (ab), 165
Hormonal imbalance, effect of, on advanced carcinoma of male breast (ab), 180
Hormone, male, value of, in treatment of genital cancer in female (ab), 339
parathyroid, primary site of action of (ab), 851
therapy, androgen, in primary cancer of female breast and its metastases (ab), 340
Hormones, primary operable breast carcinoma treated with (ab), 707
sex, and castration in advanced breast cancer (ab), 708
treatment of cancer of breast by (ab), 707
Horner's syndrome, roentgen manifestations (ab), 145
Horses, thoroughbred, roentgen therapy of inflammatory conditions affecting legs of (ab), 331
Hunter-Hurler disease, 715
Hurler's syndrome, atypical (ab), 689
Hyaluronidase and 70 per cent urokon, subcutaneous urography by use of (ab), 676
Hydatid infantilism (ab), 689
Hydatidosis, osseous (ab), 173
Hydrocephalus, rapidly progressing, separation of blood vessels from walls of lateral ventricle in, 929
tracer studies with radioactive phosphorus on problem of (ab), 700
Hydrogen, radioactive, in experimental atherosclerosis (ab), 702
Hydronephrosis, caused by psoas abscesses, 788
division or conservation of aberrant artery in (ab), 530
Hydrothorax, pelvic tumors with (ab), 673
pseudocyst of pancreas associated with, 585
Hypernephroma, metastatic, of brain (ab), 501
Hypernephromas, multiple, of kidney in association with Lindau's disease (ab), 529
Hyperostoses, cranial, short review of (ab), 132
infantile cortical, atypical case of (ab), 882
Hyperostosis, infantile cortical, hypervitaminosis A with (ab), 882
progressive diaphyseal (ab), 882
Hypertension, influence of radiation therapy on (ab), 329
Hyperthyroidism, polyostotic fibrous dysplasia associated with (ab), 315
results of nonsurgical treatment of (ab), 699
treatment of (ab), 704
Hypervitaminosis A with infantile cortical hyperostosis (ab), 882
Hypoparathyroidism, idiopathic (ab), 142
Hypopharynx, cancer, roentgen therapy in, 443
Hypophysis, normal human, irradiation of, in malignancy (ab), 691
radiation therapy of (ab), 181
Hypothyreosis, infantile, before and after thyroid therapy, skeletal changes resembling survy in (ab), 881
Hypothyroidism, treatment of incapacitated euthyroid cardiac patients by producing, with radioactive iodine (ab), 704
Hysterectomy, supracervical, and carcinoma of cervix (ab), 877
Hysterosalpingography, importance of pressure in, introduction of new manometer for (ab), 1016
ioduron-S, new water-soluble contrast medium for (ab), 1017
uterovenous and uterolymphatic intravasation in (ab), 166
with water-soluble medium in investigation of infertility (ab), 528

I^{131} labeled proteins, effect of sensitization and roentgen radiation on metabolism of (ab), 334
National Bureau of Standards solution standards of, 123
Idaho State Radiological Society, 1010
Ileitis, segmental (ab), 872
Ileocecal invagination due to cancer (ab), 526
lesions, nonmalignant, roentgen features of (ab), 525
Ileus, experimental, in rabbits (ab), 158
Iliac horns, congenital hereditary anomaly (ab), 886
Ilium, chondrosarcoma of, complicating hereditary multiple exostoses (ab), 887
diamond-shaped graft from, for nonunion of tibia (ab), 683
Illinois Radiological Society, 121
Indian Radiological Association, 487
Industry, Northamptonshire boot and shoe, mass radiography findings in (ab), 506
Infancy, acute abdominal conditions of (ab), 157
Infant, normal newborn, tracheal diameter in, 785
Infantilism, hydatid (ab), 689
Infants, intestinal obstruction in (ab), 870
oil aspiration pneumonia in (ab), 507
retroperitoneal tumors in (ab), 868

Infections, chronic, of upper respiratory tract (ab), 854
staphylococcal, involving face, method of treatment of (ab), 324
Infertility, hysterosalpingography with water-soluble medium in investigation of (ab), 528
Inflammations, nonspecific, of lung, roentgen therapy with minimum doses in (ab), 180
roentgen irradiation of, with minimal doses (ab), 331
Inflammatory conditions affecting legs of thoroughbred horses, roentgen therapy of (ab), 331
disease of small intestine, roentgen diagnosis of (ab), 869
diseases, combined roentgen and short wave therapy of (ab), 325
Injuries, radiation, produced by atomic bombs, diagnosis, prognosis and treatment of (ab), 697
Injury from atomic bombs (ab), 696
Inlet, transverse diameter of (ab), 1017
Inter-American Congress of Radiology, fourth, 487; 657
International Congress of Radiology, seventh, 657
seventh, technical exhibition, 657
International Congress of Stratigraphy, 1009
International Congress of Surgeons, eighth, 828
International Union against Tuberculosis, conference of, 488
Intervertebral disc, lumbar spinal arachnoiditis a complication of operation on (ab), 878
roentgen visualization of (ab), 679
thoracic, prolapse of (ab), 884
Intervertebral discs, cervical, syndromes associated with herniation of (ab), 878
lumbar, protrusions of (ab), 168
Intestine, congenital abnormalities of rotation of, and mesenteric attachment (ab), 873
distribution of gas in, following laparotomies unaccompanied by complications (ab), 151
large, diagnosis of early cancer of (ab), 670
large, hemangioma of (ab), 871
large, volvulus of (ab), 155
obstruction of, in newborn and infant (ab), 870
roentgen appearance of pouches of, following lateral anastomoses, 227
small, accelerated passage through (ab), 669
small, diagnosis of tumors of (ab), 870
small, in undernutrition (ab), 869
small, incomplete obstruction of (ab), 150
small, lipomas of mesentery of (ab), 870
small, relationship of nature of opaque medium to roentgenographic pattern of (ab), 150
small, roentgen diagnosis of inflammatory disease of (ab), 869
small, roentgen examination of, by means of duodenal tube (ab), 157
small, roentgenology of (ab), 869; (ab), 870
tuberculosis of, and Crohn's disease (ab), 151
Intracardiac angiocardiography, evaluation of, 596
Intracranial abnormality, cranial clues to, 535
lesions, radioactive diiodofluorescein test for localization of, evaluation of technique and results of (ab), 699
lesions, space occupying, serial angiography in diagnosis of, 360
neoplasms, scintillation counter for diagnosis and localization of, 351
Intussusception, ileo-ileal, of unusual etiology (ab), 160
in children under two years of age (ab), 158
Iodine, radioactive, concentration test in study of thyroid disease (ab), 704
radioactive, in tetraiodophenolphthalein, direct irradiation of carcinoma of liver and biliary tract by use of, 964
radioactive, metabolism of, in patients with cardiac disease, 42
radioactive, topographic study of thyroid by external measurement of (ab), 703
radioactive, treatment of hyperthyroidism with (ab), 704
radioactive, treatment of incapacitated euthyroid cardiac patients by producing hypothyroidism with (ab), 704
radioactive, uptake of, after intravenous administration of tracer doses (ab), 337
radioactive, uptake of by *Ascophyllum* (ab), 1032
Iodoacetate index in pregnancy (ab), 166
Iodupon B, does bronchography with, harm lung parenchyma? (ab), 145
-S, new water-soluble viscid contrast medium for hysterosalpingography (ab), 1017
Ireland, Northern, localized outbreak of tinea capitis in (ab), 329
Iron metabolism in human pregnancy as studied with Fe^{59} (ab), 338
Irradiation See also Postirradiation
injuries of hand (ab), 323
of human skin with fast electrons, significance of time factor in (ab), 328
of pelvic viscera, late complications following (ab), 1031
total body, ocular changes produced by (ab), 327
whole body, cataract formation following (E), 998

Jackson's syndrome due to intracranial epidermoid tumor (ab), 842
Jaundice, experimental, use of radioactive tracer material in differential diagnosis of (ab), 337
in acute subleukemic lymphocytic leukemia (ab), 864
postgastrectomy, relation between and influence of duodenal ulcer upon duodeno-choledocho-pancreatic function (ab), 156
Jaw, clicking, problem of (ab), 844
Jejunum, Crohn's disease localized in (ab), 152
leiomyoma of (ab), 669
II, Crohn's disease involving (ab), 152

Joint, atlanto-epistropheal, demonstration of (ab), 678
diseases, chronic, application of technique of roentgenographic magnification to study of (ab), 347
manubrio-sternal, in ankylosing spondylitis (ab), 170
temporomandibular, infantile ankylosis of (ab), 679
xanthomatous tumors of (ab), 682
Joints, diabetic neuropathic, management of (ab), 1022
Joseph Freedman Lectures, 488

Keller operation for hallux valgus and hallus rigidus (ab), 684
Kentucky Radiological Society, 487
Kerby, James Philip, 1886–1952, obituary, 821
portrait, 821
Kidney, multilocular cysts of (ab), 1018
multiple hypernephromas of, in association with Lindau's disease (ab), 529
roentgen appearance of central fat tissue of (ab), 167
spontaneous circumrenal hematoma (ab), 1019
surgical, evaluation of, employing translumbar aortography (ab), 529
Kidneys, anatomical roentgenographic study of alterations of blood vessels in certain forms of pathology of (ab), 529
calcinosis of, associated with parathyroid tumor (ab), 677
complications of, in dissecting aneurysm of aorta (ab), 139
congenital cystic dilatation of collecting tubules of (ab), 1018
disease of, bilateral surgical (ab), 529
effect of psoas abscesses upon, 788
extrarenal calyces (ab), 677
layering phenomenon of calculi of, 410
two extreme forms of autonephrectomy in tuberculosis of (ab), 529
Kienböck's disease of carpal lunate bone, early changes of (ab), 1021
Knee, diodrast arthrography of (ab), 887
Kymography, demonstration of secretion-filled echinococcus cyst situated near heart (ab), 149
of heart in horizontal section, two methods of (ab), 712

Laminagraphy, carcinoma of cardia of stomach as detected by, 932
diagnostic advantages and indications for, in transverse plane compared with vertical (ab), 712
horizontal (ab), 341
in diagnosis of mediastinal tumors (ab), 508
in diagnosis of nasopharyngeal tumors (ab), 135
Larynx, cancer, roentgen therapy in, 443
osseous metastases in carcinoma of (ab), 317
Layering phenomenon of renal calculi, 410
Lead poisoning in children (ab), 176
Leg, percutaneous retrograde phlebography of (ab), 687
phlebography of, in erect position (ab), 1025
reflux of intestinal chyle in lymphatics of (ab), 176
venographic localization of incompetent communicating veins in (ab), 686
Legs of thoroughbred horses, roentgen therapy of inflammatory conditions affecting (ab), 331
Leiomyoma of esophagus (ab), 508
of jejunum (ab), 669
Leiomyomas and myometrium in endometrial carcinoma (ab), 165
Leiomyosarcoma of stomach with excavation of center of tumor, 76
Leriche syndrome, 891
Lesions, uncommon compressing, of spinal cord and its membranes, 415
Letterer-Siwe's disease, atypical case of (ab), 1023
Leukemia, acute AK-4, effect of radioactive colloidal metallic gold in treatment of, in mice (ab), 705
acute, study of natural history of (ab), 686
acute subleukemic lymphocytic, jaundice in (ab), 864
acute, treatment of, with a-methopterin (ab), 706
and pregnancy (ab), 1027
association of, with polycythemia vera (ab), 318
blood cell changes in, during aminopterin therapy (ab), 1027
effects of folic acid antagonists and 2,6-diaminopurine on (ab), 708
eosinophilic (ab), 176
myelocytic, incidence, distribution and fatality (ab), 1027
myeloid, vertebral manifestations of (ab), 680
Leukemias, titrated, regularly spaced radioactive phosphorus or spray roentgen therapy of (ab), 339
Leukocytes, human leukemic, growth of, in vitro and in vivo as measured by uptake of P^{32} in desoxyribose nucleic acid (ab), 705
Life, duration of, in untreated cancer (ab), 688
Lindau's disease, multiple hypernephromas of kidney in association with (ab), 529
Lipochondrodystrophy, 715
Lipoma, mesenteric (ab), 154
submucous, of descending colon (ab), 153
Lipomas of mesentery of small intestine (ab), 870
Liver, carcinoma, direct irradiation of, by radioactive iodine in tetraiodophenolphthalein, 964
primary carcinoma of, in hemochromatosis (ab), 874
visualization of, by simple roentgen contrast method (ab), 162
Lobar collapse, patterns of, as observed roentgenographically (ab), 144
Lobectomy, roentgenogram after (ab), 859
Lobotomy, prefrontal, study of pneumoencephalograms before and after (ab), 135

Localization of gallbladder, 644
Löffler's syndrome (ab), 515
Looser-Milkman syndrome, occurrence of, in case of idiopathic steatorrhea (ab), 322
Los Angeles Radiological Society, fourth annual mid-winter radiological conference of, 121
officers elected, 121
Lunatum, bipartition of (ab), 170
Lung, aluminum, caused by exposure to aluminum dust (ab), 515
anomalous lobe of, arising from esophagus (ab), 143
arteriovenous fistula of (ab), 509
carcinoma, hypertrophic osteoarthropathy in (ab), 858
carcinoma, lipoid pneumonia in, treated by radiotherapy (ab), 1030
cervical hernia of (ab), 513
excluded (ab), 847
intralobar sequestration of, associated with abnormal pulmonary artery (ab), 861
parenchyma of, is ioduron bronchography harmful to? (ab), 145
primary bronchogenic carcinoma of, in children (ab), 848
primary carcinoma of (ab), 857
tuberculous cavities of lower lobe of (ab), 848
Lungs, alveolar cell carcinoma of (ab), 517
arterial circulation of, in segmental disturbances of aeration (ab), 508
bronchogenic carcinoma as differential diagnostic problem in disease of (ab), 147; (ab), 148
cancer, new method for treatment of, by artificial radioactivity (ab), 703
cavitation of (ab), 515
changes in, following cholecystectomy (ab), 847
changes in, in fibrosis of pancreas (ab), 507
clinically indeterminate fibrosis of (ab), 515
congenital pulmonary stenosis of (ab), 513
isolated stenosis of (ab), 511
lymphangitic carcinomatosis of (ab), 518
manifestations in, of diffuse scleroderma (ab), 845
moniliasis of (ab), 854
nonspecific inflammations of, roentgen therapy with minimum doses in (ab), 180
primary cancer of (ab), 517
progressive changes in function of, after pneumonectomy (ab), 859
roentgen aspects of arteriovenous fistula of (E), 478
sarcoidosis of, with roentgen appearances of metastatic neoplasm, 259
sclerosis of (ab), 138
threshold visibility of shadows in (ab), 342
Lymphangioma, congenital hemihypertrophy with (ab), 322
Lymphatics of leg, reflux of intestinal chyle in (ab), 176
Lymphogranulomatosis of bone (ab), 1024
Lymphoma, malignant, of rectum and anus (ab), 161
malignant, vertebral manifestations of (ab), 680
Lymphosarcoma, partition of radiophosphorus in blood, urine and tumor tissue in patients with, before and after treatment with nitrogen mustard (ab), 334

McNamee, Edward Paul, 1890–1951, obituary, 115
portrait, 115
Malignancy in adenomas of thyroid (ab), 179
irradiation of normal human hypophysis in (ab), 691
Malignant disease of testis (ab), 693
Marble bones, See Osteopetrosis
May, Robert John, 1879–1951, obituary, 651
portrait, 651
Measurement of local blood flow, radioactive sodium in (ab), 1033
of neck of femur, 993
of roentgen and gamma radiation over wide energy range (ab), 345
rapid, of beta-ray dosages above 1 rep/sec., simple laboratory set up for (ab), 347
Measurements, isodose, for cobalt 60 teletherapy unit (ab), 337
Meconium peritonitis (ab), 672
Mediastinum, cysts of, of embryologic origin (ab), 855
shadow of, in young children, factors influencing (ab), 139
tumors, tomography in diagnosis of (ab), 508
Mega-esophagus acquired by "fakirism" (ab), 141
Meig's syndrome (ab), 673
Melanocarcinoma of plantar surface of foot (ab), 690
Melanoma, malignant (ab), 689
malignant, in tropics (ab), 688
malignant, prognosis for, in pregnant woman (ab), 673
malignant, radiation therapy of, 286
Melorheostosis associated with congenital arteriovenous aneurysms (ab), 1025
Léri, clinical picture of (ab), 316
with bone sclerosis (ab), 315
Meningitis, tuberculous, in children, studies of cerebrospinal fluid circulation in (ab), 135
Meningocele, intrathoracic (ab), 169
Mesentery, lipoma of (ab), 154
of small intestine, lipomas of (ab), 870
Metabolism, iron, in human pregnancy as studied with Fe^{59} (ab), 338
of radioactive iodine in patients with cardiac disease, 42
Metastases, extensive pulmonary, spontaneous and complete regression of, in case of chorionepithelioma (ab), 146
osseous, in carcinomas of oral cavity, pharynx and larynx (ab), 317
Mica, muscovite, pleural calcification resulting from exposure to, 375
Milkman's syndrome (ab), 1021
Molars, impacted mandibular third, value of occlusal roentgenogram in locating (ab), 505

Moniliasis, pulmonary (ab), 854
Morison, John Miller Woodburn, obituary, 481
portrait, 481
Morphine, pharmacologic action of, on extrahepatic biliary passages of man (ab), 348
Mucosa, gastric, retrograde extrusion or prolapse of, into esophagus (ab), 865
Muscle compression, subclavius and anterior scalene, as cause of intermittent obstruction of subclavian vein (ab), 888
human, consistency of clearance of radioactive sodium from (ab), 1032
Mycoses, pulmonary (ab), 515
Myelography, value of, in diagnosis of compressing lesions of spinal cord and its membranes, 415
Myeloma, multiple (ab), 881
multiple, treatment with urethane and ACTH (ab), 1033
multiple, vertebral manifestations of (ab), 680
Myocardium, calcified scar of, roentgen appearance (ab), 862
extensive calcification of (ab), 520
focal calcification of, 602
Myometrium and leiomyomas in endometrial carcinoma (ab), 165

Nasopharynx, carcinoma, nitrogen mustard and urethane in treatment of (ab), 339
irradiation for benign conditions of (ab), 695
laminagraphy in diagnosis of tumors of (ab), 135
Nassau Radiological Society, 1010
National Bureau of Standards Semicentennial 1901–1951 (E), 112
Neck of femur, subtrochanteric osteotomy for nonunion of (ab), 886
Neoplasm, bronchiogenic, masquerading as alveolar cell carcinoma (ab), 517
metastatic, pulmonary sarcoidosis with roentgen appearances of, 259
Neoplasms, Bolen test in diagnosis of (ab), 711
esophageal, rotation therapy in (ab), 179
in spheno-orbital space, unilateral changes in anterior clinoid due to (ab), 135
intracranial, scintillation counter for diagnosis and localization of, 351
Neoplastic disease, effects of folic acid antagonists and 2,6-diaminopurine on (ab), 708
Nerve blocks, diagnostic and therapeutic, necessity for roentgenograms (ab), 1020
Neural arch, separate, and coincident bone variations, incidence of (ab), 171
Neurofibromatosis, multiple (ab), 169
Nevi, cellular (ab), 688
Newborn, congenital intrinsic obstruction of stomach and duodenum in (ab), 1014
pneumatosis intestinalis in (ab), 870
pneumomediastinum in (ab), 512
roentgen findings in atelectasis of, 905
Nipple discharge, significance of (ab), 852
Nitrogen mustard in treatment of nasopharyngeal carcinoma (ab), 339
partition of radiophosphorus in blood, urine and tumor tissue in patients with Hodgkin's disease and lymphosarcoma before and after treatment with (ab), 334
therapy, intra-arterial, of cutaneous lesions (ab), 706
Northeastern New York Radiological Society, 122
Nucleic acids, effect of roentgen-ray radiation on biosynthesis of (ab), 710

Obstruction, benign, of lower esophagus (ab), 140
congenital intrinsic, of stomach and duodenum in newborn (ab), 1014
incomplete, of small intestine (ab), 150
intestinal, in adult (ab), 873
intestinal, in newborn and infant (ab), 870
Obstructions, true strangulating, roentgenological experiences with (ab), 158
Ocher dust inhalation, roentgen appearance of pneumoconiosis due to (ab), 137
Ocular changes produced by total body irradiation (ab), 327
Ohio State Radiological Society, 122; 657
Oil aspiration pneumonia in infancy (ab), 507
contrast study of lower esophagus, 942
Oklahoma State Radiological Society, 658
Opaque medium, relationship of nature of, to small intestine roentgenographic pattern (ab), 150
Oral cavity, osseous metastases in carcinoma of (ab), 317
Orthodiametry (ab), 711
Ossification, anomalous centers of, for inferior articular processes of lumbar vertebrae (ab), 171
Osteitis deformans, theory of etiology of (ab), 682
fibrosa cystica in metastasizing carcinoma of parathyroid gland (ab), 683
Osteoarthritis, degenerative, of hip joint, 95
Osteoarthropathy, generalized hypertrophic, pathologic study (ab), 680
hypertrophic, in carcinoma of lung (ab), 858
Osteochondromatosis of hip joint (ab), 175
Osteogenesis imperfecta, case of, diagnosed in utero, 103
Osteoma, parosteal, of bone (ab), 880
Osteomyelitis, chronic, carcinoma occurring in sinuses of (ab), 133
first recurrence of, eighty years after infection (ab), 174
pyogenic, of spine, 90
Osteopecilia, familial (ab), 679
Osteopetrosis, early roentgen and pathologic findings (ab), 880
Osteotomy, subtrochanteric, for nonunion of neck of femur (ab), 886
Otto-Chkobak's pelvis (ab), 317
Otto pelvis See Arthrokatadysis
Ovaries, bilateral polycystic (ab), 674
Ovary, cancer of (ab), 876
dysgerminoma of (ab), 876

endometrial carcinoma associated with feminizing tumors of (ab), 673
needle puncture of cysts of, and cystography (ab), 164
place of roentgen therapy in treatment of malignant tumors of (ab), 1031

P^{32}, estimation of dosage for intravenously administered, 28
National Bureau of Standards solution standards of, 123
partition of, in blood, urine, and tumor tissue in patients with Hodgkin's disease and lymphosarcoma before and after treatment with nitrogen mustard (ab), 334
Paget's disease, case of, presenting extraordinary degree of osteoblastic activity (ab), 316
early stage of (ab), 317
Pancreas, annular (ab), 867
carcinoma, diagnostic and operative criteria (ab), 671
carcinoma, roentgen findings in, 576
diffuse calcification of (ab), 160
disseminated calcification of (ab), 160
fibrocystic disease of (ab), 866
pseudocyst of, associated with hydrothorax, 585
pulmonary changes in fibrosis of (ab), 507
Pancreatitis, chronic, accompanying Crohn's disease (ab), 152
preoperative diagnosis of, by gastrointestinal roentgenography (ab), 671
Papain, mucolytic action of, for cell concentration in diagnosis of gastric cancer (ab), 710
Papilla of Vater, carcinoma in region of (ab), 160
Paraplegia, scoliosis with (ab), 317
Parathyroid gland, calcinosis of kidneys associated with tumor of (ab), 677
carcinoma of (ab), 851
metastasizing carcinoma of, with osteitis fibrosa cystica and extensive calcinosis (ab), 683
primary site of action of hormone of (ab), 851
Parietal foramina, large, 551
Parotid gland, papillary cystadenoma lymphomatosum of (ab), 136
tumors of (ab), 840
Parotitis, acute (ab), 846
Pelvicephalometry, present status of (ab), 163
Pelvimetric methods, review of (ab), 163
Pelvimetry, clinical and roentgen (ab), 675
roentgen, and general practitioner (ab), 875
roentgen, transverse diameter of inlet in (ab), 1017
Pelvis and its contents, position of value in studying (ab), 342
disruption of (ab), 172
late complications following irradiation of viscera of (ab), 1031
pneumoperitoneum in study of structures of (ab), 712
tumors of, with ascites, hydrothorax, or both (ab), 673
Penfield, Wilder, Caldwell Lecturer, 1951, portrait opposite page 535
Penicillin, advanced actinomycosis of spine treated with (ab), 885
Pennsylvania Radiological Society, preliminary program of annual meeting, 828
Perabrodil M, bronchography with (ab), 512
35 per cent solution, demonstration of cerebral blood vessels with (ab), 843
Pericardium, cysts of (ab), 138
roentgen appearance of calcification of (ab), 521
Peritonitis, meconium (ab), 672
Peteosthor, distribution of, in growing organism (ab), 349
Peyronie's disease, therapy of (ab), 1030
Pfahler, G. E., radiological award given to, 309
Pharynx, diverticula of, evolution and treatment of (ab), 140
osseous metastases in carcinoma of (ab), 317
Pheochromocytoma, anesthetic management during surgical treatment (ab), 676
Phlebitis, old, of lower extremities with extension to inferior vena cava (ab), 1026
Phlebography of leg in erect position (ab), 1025
percutaneous retrograde, of leg (ab), 687
study by, of constrictive processes in superior vena cava area and accompanying changes in collateral circulation (ab), 687
Phlegmonous gastritis, 781
Phosphate, radioactive chromium, distribution in organism of, injected by intravenous route (ab), 701
Phosphorus, labelled, uptake of, by cancer of cervix (ab), 335
radioactive, effect of, on bone grafts (ab), 700
radioactive, growth of human leukemic leukocytes in vitro and in vivo as measured by uptake of, in desoxyribose nucleic acid (ab), 705
radioactive, method of determination of blood volume with (ab), 1032
radioactive, poisoning in rats, biologic effects of (ab), 338
radioactive, surface activity following administration of (ab), 702
radioactive, tracer studies with, on absorption of cerebrospinal fluid and problem of hydrocephalus (ab), 700
radioactive, treatment of polycythemia vera with (ab), 335
titrated, regularly spaced radioactive, therapy of leukemias (ab), 339
Photofluorographic equipment, secondary radiation fields surrounding (ab), 714
methods, detection of gastric carcinoma by, 68
Photofluorography in Canton of Zürich, 1946–1949, organization and results of (ab), 136
Photoroentgenograms, cardiac mensuration as applied to (ab), 521
Physician, problem of, in atomic warfare (ab), 336
Physiology, human thyroid, using I^{131}, scintillation counter in clinical studies of (ab), 698
Pituitary gland, adamantinomas, roentgen therapy of (ab), 182

irradiation of, in prostatic carcinoma (ab), 182
irradiation of, in treatment of malignant exophthalmos (ab), 690
treatment of some disorders of, by radiotherapy (ab), 1028
tumors of (ab), 842
Placenta, calcification of, in roentgen pregnancy study, 267
calcifications of (ab), 675
previa, new ideas about diagnosis and treatment of (ab), 165
Plasma, effect of roentgen irradiation on (ab), 344
Platybasia (ab), 502
and neurologic disturbances of syringomyelic type (ab), 499
Platinum, distribution of, in growing organism (ab), 349
Pleura, calcification of, resulting from exposure to certain dusts, 375
endothelioma of (ab), 146
Pleuritis, chronic hemorrhagic, picture resembling pleural endothelioma following (ab), 146
Pneumatosis intestinalis in newborn (ab), 870
Pneumoconiosis, histological survey of necropsy material in 1205 cases (ab), 506
roentgen appearance of, due to ocher dust inhalation (ab), 137
Pneumoencephalograms, review of 100, in tuberculous meningitis in children (ab), 135
study of, before and after prefrontal lobotomy (ab), 135
Pneumoencephalography, deaths related to, during six year period (ab), 503
technique of, in children (ab), 504
Pneumography of urinary tract under spinal anesthesia, air embolism during (ab), 528
Pneumomediastinum, artificial, in exploration of thymus (ab), 513
in newborn (ab), 512
Pneumonectomy, progressive changes in pulmonary function after (ab), 859
roentgenogram after (ab), 859
Pneumonia, lipoid, in carcinoma of lung treated by radiotherapy (ab), 1030
oil aspiration, in infancy (ab), 507
prophylactic roentgen irradiation in artificially produced (ab), 181
Pneumoperitoneum, air injection into pregnant uterus following refilling of (ab), 1016
in study of pelvic structures (ab), 712
ruptured diaphragm complicating, spontaneous pneumothorax resulting from (ab), 850
Pneumothorax, spontaneous, result of ruptured diaphragm complicating pneumoperitoneum (ab), 850
Poisoning, vitamin A (ab), 532; (E) 818
Polyarthritis with unusual bone changes (ab), 314
Polycythemia vera, association of, with leukemia (ab), 318
treatment of, with radioactive phosphorus (ab), 335
Polyp, benign, of ampulla of Vater (ab), 669
Polyposis, diffuse familial, of colon (ab), 872
familial, of colon (ab), 1015
familial, surgical treatment of (ab), 1015
Polyps, lymphoid, and malignant lymphoma of rectum and anus (ab), 161
Portography during operation for Banti's syndrome (ab), 154
Post-gastrectomy syndrome, early, experimental study of 70 cases showing (ab), 527
Postirradiation syndrome, pathogenesis and treatment of (ab), 324
Postmortem chest teleroentgenograms, routine, plea for, 263
Practitioner, general, and roentgen pelvimetry (ab), 875
Pregnancy and puerperium, blood volume and heart volume during (ab), 164
arteriography in, 192
carcinoma of cervix uteri during (ab), 675
cholecystitis and cholelithiasis in young women following (ab), 526
chorionepithelioma occurring during (ab), 1017
effect of, on course of sarcoidosis (ab), 514
human, iron metabolism in, as studied with Fe^{59} (ab), 338
iodoacetate (Huggins) index in (ab), 166
leukemia and (ab), 1027
placental calcification in roentgen study of, 267
problem of, in Hodgkin's disease (ab), 165
prognosis for malignant melanoma in (ab), 673
relationship of arrhenoblastoma to (ab), 674
sarcoidosis and (ab), 875
Prolapse of thoracic disc (ab), 884
Prostate gland, cancer of (ab), 678
cancer, serum phosphatase determinations in diagnosis of (ab), 530
carcinoma, pituitary irradiation in (ab), 182
Prostatic smear in cancer diagnosis (ab), 167
Protection, roentgen-ray, change in handbook on, announced, 309
Proteins, I^{131} labeled, effect of sensitization and roentgen radiation on metabolism of (ab), 334
Protrusion of acetabulum (ab), 317
Pseudarthrosis of tibia in childhood (ab), 175
Pseudocyst of pancreas associated with hydrothorax, 585
Psoas abscesses, effect of, upon kikneys and urinary passages, 788
Pylorus, congenital hypertrophic stenosis of (ab), 1014
perigastric adhesions and bands involving antrum of, 210

Radiation, beta, calculations for distributed sources of, 981
exposure to patient in diagnostic roentgenology, use of filters to control, 946
fields, secondary, surrounding photofluorographic equipment (ab), 714
injury, recovery from (ab), 713
penetrating ionizing, hemorrhagic phase of acute radiation syndrome due to exposure of whole body to, 796

roentgen and gamma, measurement of, over wide energy range (ab), 345
roentgen-ray, effect of, on biosynthesis of nucleic acids and nucleic acid purines (ab), 710
sickness, its treatment with dramamine (ab), 178
sickness, therapy of (ab), 698
syndrome, acute, due to exposure of whole body to penetrating ionizing radiation, hemorrhagic phase of, 796
therapy, grid technique of, with depth dose measurements, 470
therapy, influence of, on hypertension (ab), 329
therapy, interstitial, radioactive cobalt 60 in plastic tubing for (ab), 701
therapy of esophageal neoplasms by rotation method (ab), 179
therapy through perforated grid, depth dose investigation of, at 200 kilovolts, 458
Radiations, penetrating, colorimetric dosimeter for qualitative measurement of (ab), 709
Radioactive decontamination (ab), 698
substances, determination of circulatory volume with (ab), 333
test of thyroid function (ab), 337
tracer material, use of, in differential diagnosis of experimental jaundice (ab), 337
tracer methods, evaluation of, in mental patients (ab), 698
Radioautography, direct tissue technique, applied to teeth (ab), 1034
technique of (ab), 347
Radiobiology, clinical, problems of (ab), 342
Radiocarbon, distribution and dosage of, in tissues, 989
Radiocurability of cancer, 428
Radioisotopes in research, courses in techniques of using, 489
positron-emitting, use of, for localization of brain tumors (ab), 703
Radiologic hazards, evaluation of (ab), 698
Radiological aspects of atomic defense, additional teaching in (ab), 697
physics, graduate fellowships in, 122
Society of Hawaii, 1011
Society of North America, new officers, 309
use of high energy deuterons and alpha particles 1
Radiologist, role of, at time of reduction and fixation of fracture of neck of femur, 750
Radiology, course in essential physics in, 488
Radiotherapy, use of fast electrons in (ab), 694
Radium needles, low intensity, in treatment of cancer of gums, 420
Radius, fractures of head of, with distal radio-ulnar dislocation (ab), 883
Rectosigmoid, endometriosis of (ab), 526
Rectum, cancer, new technique for treatment of, with radium and roentgen rays (ab), 326
carcinoid of (ab), 670
diagnosis of early cancer of (ab), 670
inadequacy of routine barium enema for roentgen examination of (ab), 873
lymphoid polyps and malignant lymphoma of (ab), 161
Rendu-Osler's disease, radiotherapy in treatment of (ab), 696
Respiratory tract, upper, chronic infections of (ab), 854
Reticuloses, the (E), 301
Retina, stimulation of, by roentgen rays (ab), 840
Retrocardiac space and contrast study of esophagus in advanced age (ab), 149
Retroperitoneal emphysema (ab), 162
Retrorectal tumors (ab), 161
Rhinitis, suppurative, rhinolith as cause of (ab), 133
Rhinolith as cause of suppurative rhinitis (ab), 133
Rib notching, unusual causes of, 405
Rickets, renal, simulating metaphysial dysostosis (ab), 879
vitamin-resistant (ab), 532
Rocky Mountain Radiological Society, program of Mid-Summer Conference of, 1009
Roentgen doses, small, repeated daily for one year, biological effects of (ab), 343
examination, diagnostic accuracy of, in diseases of upper gastrointestinal tract (ab), 155
films in dosimetry, use of, 991
irradiated animals, disappearance rate of tagged substances from circulation of, 628
irradiated mice, alteration of mortality of, by chemical means, 810
irradiation, contact, injuries of growing bone by, and their prevention (ab), 343
irradiation, effect of, on erythrogenesis, plasma and cell volumes (ab), 344
irradiation, total body, effect of, on long bones of hamsters, 974
output of fluoroscopes in routine diagnostic practice (ab), 714
radiation, stray, unexpected sources of (E), 647
radiation, supervoltage, mortality in swine and dose distribution studies in phantoms exposed to, 620
-ray protection handbook, change in, announced, 309
rays, effects of, on cancer (ab), 349
rays, retinal stimulation by (ab), 840
rays, stray, use of photographic films for monitoring (ab), 340
sign of fetal death, 106
therapy, low voltage, with beryllium window tube (ab), 327; (ab), 328
therapy, place of, in treatment of malignant ovarian tumors (ab), 1031
therapy, spray, of leukemias (ab), 339
therapy unit, new rotation, 641
tube, polyanode (ab), 711
unit at 320 and 160 mev. (ab), 346
Roentgenogram after lobectomy and pneumonectomy (ab), 859
occlusal, value of, in locating impacted mandibular third molars (ab), 505

Roentgenograms, identification of right and left sides in, by permanent cassette marker (ab), 342
serial, emptying of human gallbladder in (ab), 672
30 by 30 cm. in size, new roll-film serial apparatus for (ab), 711
Roentgenographic magnification, application of technique of, to study of chronic joint diseases (ab), 347
Roentgenography, body section See Laminagraphy
mass findings from, in Northamptonshire boot and shoe industry (ab), 506
rapid serial, roll-film apparatus for (ab), 341
Roentgenology, diagnostic, use of filters to control radiation exposure to patient in, 946
pediatric, fellowship in, 122
Roentgenoscopes, roentgen output of, in routine diagnostic practice (ab), 714
Roentgenoscopy, simple, estimation of size by means of (ab), 711
Rotation roentgen therapy unit, new, 641
therapy of cancer of esophagus (ab), 693
Rugae, enlarged gastric (ab), 865

St. Louis Society of Radiologists, 487
Sarcoid, Boeck's, and pregnancy (ab), 875
Boeck's, treatment of (ab), 1033
Sarcoidosis and pregnancy (ab), 875
effects of pregnancy on course of (ab), 514
pulmonary, with roentgen appearances of metastatic neoplasm, 259
Sarcoma, Ewing's, reactive bone formation in (ab), 1021
osteogenic, arising in traumatic hemothorax and hematoma of thoracic wall (ab), 856
Scalp, total excision of, and portions of face (ab), 505
Scapula, chondromas and chondrosarcomas of (ab), 879
Scintillation counter for diagnosis and localization of intracranial neoplasms, 351
in clinical studies of human thyroid physiology using I^{131} (ab), 698
Scleroderma, diffuse, pulmonary manifestations of (ab), 845
with involvement of esophagus (ab), 845
Sclerosis, bone, melorheostosis with (ab), 315
pulmonary (ab), 138
Scoliosis with paraplegia (ab), 317
Scurvy, skeletal changes resembling, in infantile hypothyreosis before and after thyroid therapy (ab), 881
Serum phosphatase determinations in diagnosis of prostatic cancer (ab), 530
Serutan ingestion, complete obstruction of esophagus following (ab), 844
Short waves, action of, on function of gallbladder, cholecystographic investigations on (ab), 347
Shoulder girdle dysfunction following thoracoplasty combined with partial scapulectomy (ab), 859
Silvanus Thompson Memorial Lecture (ab), 345
Silver impregnation method, simplified, for vaginal smears (ab), 712
Sinobronchitis in children, 240
Sinus, lateral cervical, 757
Sinuses of chronic osteomyelitis, carcinoma occurring in (ab), 133
Sinusography, basal (ab), 839
Situs inversus of abdominal viscera with levocardia (ab), 162
of abdominal viscera with volvulus of large bowel (ab), 155
Skeleton, changes in, resembling scurvy in infantile hypothyreosis before and after thyroid therapy (ab), 881
roentgen and differential diagnosis of fibrous dysplasia of (ab), 315
Skin, carcinoma, treatment of, 606
clinically pigmented tumors of, diagnosis of (ab), 321
human, irradiation of, with fast electrons, significance of time factor in (ab), 328
Skull, dysplasia of base of, early brain damage and (ab), 842
embryological tumor of retinal anlage involving (ab), 502
fibrous dysplasia of (ab), 842
Hürthle cell tumor of (ab), 850
hyperostoses of, short review of (ab), 132
measurements, roentgenological, diagnostic applications of, 197
Slipping of upper femoral epiphysis (ab), 681
Sociedad Radiológica Panameña, new officers, 309
Sodium, radioactive, consistency of clearance of, from human muscle (ab), 1032
radioactive, in measurement of local blood flow (ab), 1033
salicylate in Crohn's disease (ab), 340
Spheno-orbital space, unilateral changes in anterior clinoid due to neoplasms in (ab), 135
Sphincter of bladder, condition of upper urinary tract in rigidity of (ab), 677
Spinal cord and its membranes, uncommon compressing lesions of, 415
intramedullary malignant teratoma of (ab), 878
progressive disease of (ab), 878
tumors of (ab), 168
Spine, actinomycosis of (ab), 884
advanced actinomycosis of, treated with penicillin and streptomycin (ab), 885
cervical, chronic hypertrophic spondylosis of, with compression of spinal cord and nerve roots (ab), 877
cervical, syndrome in acute injuries of, for which early operation is indicated (ab), 1020
deformity of (ab), 169
diastematomyelia with defects of (ab), 531
lumbar, arachnoiditis of (ab), 878
pyogenic osteomyelitis of, 90
role of vertebral venous system in metastasis of cancer to (ab), 713
Spinous processes, fracture of (ab), 172

Spleen, visualization of, by simple roentgen contrast method (ab), 162
Spondylitis, ankylosing, importance of radiotherapy in treatment of (ab), 1029
ankylosing, manubrio-sternal joint in (ab), 170
Spondylolisthesis, reversed (ab), 679
Spondylolysis, roentgenological-clinical study of (ab), 680
Spondylosis, chronic hypertrophic, of cervical spine with compression of spinal cord and nerve roots (ab), 877
Sponge biopsy in office practice, new method in diagnosis of cancer (ab), 321
Steatorrhea, idiopathic, occurrence of Looser-Milkman syndrome in case of (ab), 322
Stein's syndrome (ab), 674
Stenosis, congenital hypertrophic pyloric (ab), 1014
congenital pulmonary (ab), 513
hypertrophic pyloric, associated with partial gastric ectopia (ab), 156
isolated pulmonary (ab), 511
of isthmus of aorta (ab), 148
pyloric, in four first cousins (ab), 156
pyloric, in twins (ab), 156
valvular pulmonic, with intact ventricular septum and patent foramen ovale (ab), 139
Sterilization of frozen arterial grafts by high voltage cathode-ray irradiation (ab), 1034
Stomach, adeno-acanthoma of (ab), 150
benign tumors of (ab), 156
benign ulcer of, conservatism in surgical treatment of (ab), 866
cancer, mucolytic action of papain for cell concentration in diagnosis of (ab), 710
carcinoma of cardia of (ab), 509
carcinoma of cardia of, as detected by laminagraphy, 932
configuration of, in relaxation of diaphragm (ab), 150
congenital intrinsic obstruction of, in newborn (ab), 1014
detection of carcinoma of, by photofluorographic methods, 68
double contrast study of (ab), 1014
enlarged rugae of (ab), 865
inflation of, with double contrast (ab), 155
inversion of, with eventration of diaphragm, 63
large bezoar of (ab), 866
leiomyosarcoma of, with excavation of center of tumor, 76
military service connected disability in diseases of (ab), 521; (ab), 522
primary Hodgkin's disease of, 592
prolapse of mucosa of (ab), 524
prolapse of mucosa of, into duodenal bulb (ab), 423
prolapse of mucosa of, into duodenum (ab), 524
retrograde extrusion or prolapse of mucosa of, into esophagus (ab), 865
roentgen examination of fundus of (ab), 523
shadow of cardia of, simulating left suprarenal tumor (ab), 166
use of controlled intragastric pressure for roentgen diagnosis of lesions in and about fundus of, 217
villous tumor of (ab), 669
Stones, common duct, nonoperative treatment of retained postoperative (ab), 162
Streptomycin, advanced actinomycosis of spine treated with (ab), 885
in pulmonary tuberculosis, 383
Stricture, benign, of intrahepatic bile ducts (ab), 153
Strontium 90 inhalation incident, health physics and medical aspects of, 805
Sturge-Weber syndrome, roentgen findings in (ab), 838
Sturge-Weber's disease (ab), 132
Sulfate, radioactive sodium estrone, tracer studies of, in cases of advanced breast cancer (ab), 703
Swine, mortality in, and dose distribution studies in phantoms exposed to supervoltage roentgen radiation, 620
Symphalangism and related fusions of tarsal bones (ab), 888
Symposium Neuroradiologicum, third, 1010
Synovioma, benign giant-cell (ab), 173
roentgenographic study of, 80
Synovitis, pigmented villonodular (ab), 881
Syringomyelic type, platybasia and neurologic disturbances of (ab), 499

Tagged substances, disappearance rate of, from circulation of roentgen irradiated animals, 628
Talc, tremolite, pleural calcification resulting from exposure to, 375
Talipes calcaneo-valgus, congenital posterior bowing of tibia with (ab), 175
Tantalum gauze, use of, in closure of defect in chest wall (ab), 149
mesh, eventration of diaphragm repaired with (ab), 149
Technique, improved, for percutaneous cerebral angiography (ab), 503
of pneumoencephalography in children (ab), 504
Teeth, direct tissue radioautography technique applied to (ab), 1034
Telepaque, new contrast medium for cholecystography (ab), 672
Teleroentgenograms, routine postmortem chest, plea for, 263
Temporal bone, infected, radiology of (ab), 133
Tendon sheath origin, giant cell tumors of (ab), 173
Teratoma, intramedullary malignant, of spinal cord (ab), 878
Testis, malignant disease of (ab), 693
treatment of malignant tumors of (ab), 333
Tetraiodophenolphthalein, direct irradiation of carcinoma of liver and biliary tract by radioactive iodine in, 964
Texas Medical Center, Houston, announcement of meetings at, 488
Thigh-neck clearance, simplified radioactive test of thyroid function (ab), 337

Thiouracil, propyl, treatment of hyperthyroidism by prolonged administration of (ab), 704
Thoracoplasty combined with partial scapulectomy, shoulder girdle dysfunction following (ab), 859
late changes in ventilatory function following (ab), 860
Thorax See also Chest
neurogenous tumors within (ab), 853
Thorium dioxide, colloidal, problem of faulty elimination of when used as contrast medium (ab), 324
dioxide, late effects of, in man (ab), 1015
X, influence of, on epiphyseal growth in young rabbits (ab), 349
Thrombosis, deliberate, of intracranial arterial aneurysm by partial occlusion of carotid artery with arteriographic control (ab), 504
of terminal aortic bifurcation (ab), 318
pulmonary artery (ab), 516
Thrombotic obliteration of aortic bifurcation, 891
Thumb, triphalangeal (ab), 883
Thymus gland, artificial pneumomediastinum in exploration of (ab), 513
large tumor of, simulating pericardial effusion (ab), 513
Thyroid acropachy (ab), 141
Thyroid gland, activity of, in mental patients (ab), 698
Hürthle cell tumor of (ab), 850
malignancy in adenomas of (ab), 179
radioiodine concentration test in study of disease of (ab), 704
scintillation counter in clinical studies of physiology of, using I^{131} (ab), 698
simplified radioactive test of function of (ab), 337
topographic study of, by external measurement of radioiodine (ab), 703
Thyroidectomy, evaluation of, in treatment of hyperthyroidism (ab), 704
Tibia, congenital posterior bowing of, with talipes calcaneo-valgus (ab), 175
diamond-shaped graft from ilium for nonunion of (ab), 683
fatigue fractures of (ab), 684
fractures of upper end of (ab), 887
osteoperiosteal ribbon grafts in undisplaced ununited fractures of (ab), 887
pseudarthrosis of, in childhood (ab), 175
Time factor in irradiation of human skin with fast electrons, significance of (ab), 328
Tinea capitis, localized outbreak of, in Northern Ireland (ab), 329
Tissue localization and excretion routes of radioactive diethylstilbestrol (ab), 701
Tissues, distribution and dosage of radiocarbon in, 989
Tomography See Laminagraphy
Toxoplasmosis, congenital, in African child (ab), 840
Tracer studies of radioactive sodium estrone sulfate in advanced breast cancer (ab), 703
with radioactive phosphorus on absorption of cerebrospinal fluid (ab), 700
Trachea, compression of, by vascular anomalies (ab), 509
diameter of, in normal newborn infant, 785
Trichobezoar in children (ab), 1014
Triethylene melamine in treatment of neoplastic disease (ab), 706
Tuberculosis, bronchography in (ab), 857
in medical and nursing students (ab), 144
intestinal, and Crohn's disease (ab), 151
of hip, prognosis in (ab), 885
primary, of chilkhood, importance of bronchial involvement in (ab), 857
pulmonary, role of bronchi in (ab), 514
pulmonary, streptomycin in, 383
renal, two extreme forms of autonephrectomy in (ab), 529
value of total population roentgen chest survey in campaign against (ab), 136
Tuberculous cavities, inspissated, 57
cavities of lower lobe (ab), 848
Tumor, benign polypoid, of esophagus (ab), 852
embryological, of retinal anlage involving skull (ab), 502
glomus (ab), 178
Hürthle cell, of thyroid and skull (ab), 850
intracranial epidermoid, Jackson's syndrome due to (ab), 842
large thymic, simulating pericardial effusion (ab), 513
left suprarenal, gastric cardia shadow simulating (ab), 166
parathyroid, calcinosis of kidneys associated with (ab), 677
retinal anlage (ab), 502
transplantable mouse mammary, response of, to local roentgen irradiation, transparent-chamber observations of (ab), 350
villous, of stomach (ab), 669
Tumors, benign of esophagus (ab), 508
benign, of stomach (ab), 156
blood supply of, in man, studies on (ab), 706
brain fluorescein in localization of (ab), 500
brain, use of positron-emitting radioisotopes for localization of (ab), 703
clinically pigmented skin, diagnosis of (ab), 321
feminizing ovarian, endometrial carcinoma associated with (ab), 673
giant cell, of tendon sheath origin (ab), 173
malignant, of duodenum (ab), 157
malignant, of testis, treatment of (ab), 333
malignant ovarian, place of roentgen therapy in treatment of (ab), 1031
mediastinal, cardiospasm simulating (ab), 850
mediastinal, tomography in diagnosis of (ab), 508
mouse, radiation effects of deuterons on, 18
nasopharyngeal, laminagraphy in diagnosis of (ab), 135
neurogenous, within thorax (ab), 853
of small intestine, diagnosis of (ab), 870
of spinal cord (ab), 168
parotid (ab), 840
pelvic, with ascites, hydrothorax or both (ab), 673

pituitary (ab), 842
primary, of ureter (ab), 678
retroperitoneal, in infants and children (ab), 868
retrorectal (ab), 161
roentgen examination of small intestine by means of duodenal tube for diagnosis of (ab), 157
space occupying intracranial, serial angiography in diagnosis of, 360
spontaneous and occupational, of bladder in man, experimental carcinogenesis and its relation to (ab), 344
triethylene melamine in treatment of (ab), 706
xanthomatous joint (ab), 682
Turner's syndrome (ab), 323
Twins, pyloric stenosis in (ab), 156
2,6-diaminopurine, effects of, on neoplastic disease (ab), 708

Ulcer, benign gastric, conservatism in surgical treatment of (ab), 866
benign, of esophagus (ab), 853
chronic peptic, of esophagus and "esophagitis" (ab), 140
duodenal, in children (ab), 864
duodenal, influence of, upon duodeno-choledocho-pancreatic function, relation between postgastrectomy jaundice and (ab), 156
duodenal, leiomyoma of jejunum simulating symptoms of (ab), 669
gastric and duodenal, military service connected disability in (ab), 521; (ab), 522
varicose, study of deep veins by retrograde venography (ab), 319
Ulcers, multiple gastroduodenal (ab), 523
Ureter, ectopic, in childhood (ab), 677
primary tumors of (ab), 678
Urethane in treatment of nasopharyngeal carcinoma (ab), 339
treatment of multiple myeloma with (ab), 1033
Urinary passages, effect of psoas abscesses upon, 788
tract, air embolism during pneumography of, under spinal anesthesia (ab), 528
tract, upper, condition of, in rigidity of sphincter of bladder (ab), 677
Urography, significance of central fat tissue of kikney in (ab), 167
subcutaneous, new method of, utilizing 70 per cent urokon and hyaluronidase (ab), 676
Urokon 70 per cent and hyaluronidase, subcutaneous urography by use of (ab), 676
Urology, roentgen diagnosis in (ab), 1017
Uterus, carcinoma, in young women (ab), 675
carcinoma, intrauterine radium therapy of (ab), 333
pregnant, air injection of, following refilling of pneumoperitoneum (ab), 1016

Vagina, carcinoma, radiation therapy of (ab), 325
Vaginal smears, simplified silver impregnation method for (ab), 712
Varicose ulcer, study of deep veins by retrograde venography (ab), 319
Vein, azygos, dilatation of, 569
subclavian, subclavius and anterior scalene muscle compression as cause of intermittent obstruction of (ab), 888
valves, deep, venographic study in normal and postphlebitic states (ab), 320
Veins, incompetent communicating, in leg, venographic localization of (ab), 686
varicose, deep venous valves in etiology of (ab), 1026
Vena cava, inferior, old phlebitis of lower extremities with extension to (ab), 1026
Venography, localization by, of incompetent communicating veins in leg (ab), 686
of extremities, technique and value of (ab), 889
retrograde, study of deep veins in varicose ulcer by (ab), 319
study by, of deep vein valves in normal and postphlebitic states (ab), 320
Venous system, vertebral, role of, in metastasis of cancer to spinal column (ab), 713
systems, vertebral and cranial, diodrast studies of (ab), 843
Ventilatory function, late changes in, following thoracoplasty (ab), 860
Ventricle, lateral, separation of blood vessels from walls of, in rapidly progressing hydrocephalus, 929
third, colloid cyst of (ab), 838
Ventricular system, cerebral, translucent model of (ab), 840
Ventriculography, calcifications in track of needle following ventricular puncture (ab), 499
Vertebrae, dorsal and lumbar, fractures of (ab), 883
lumbar, anomalous centers of ossiffication for inferior articular processes of (ab), 171
manifestations in, of malignant lymphoma, myeloid leukemia and multiple myeloma (ab), 680
retroposition of (ab), 679
Viscera, abdominal, situs inversus of (ab), 155
abdominal, situs inversus of, with levocardia (ab), 162
pelvic, late complications following irradiation of (ab), 1031
Vitamin A poisoning (ab), 532; (E), 818
-resistant rickets (ab), 532
Volvulus of large bowel (ab), 155
of sigmoid colon (ab), 670

War wounds, cancer as sequel to (ab), 689
Warfare, atomic, physician's problem in (ab), 336
Washington State Radiological Society, 487
Westchester Radiological Society, 309
Wolff-Parkinson-White syndrome, electrokymogram in (ab), 510

Xanthomas of joint (ab), 682

Zn^{65} for treatment of cancer of lungs (ab), 703
